MEMORANDUM TO: John W. Hickey, Chief
Materials Safety and Inspection Branch
Division of Industrial and Medical Nuclear Safety, NMSS

FROM: Cynthia D. Pederson, Director, DNMS */RA/*

SUBJECT: REPORT OF COMPLETION OF INDUSTRIAL
RADIOGRAPHY RETROFITTING INSPECTIONS
(TEMPORARY INSTRUCTION 2800/027).

Temporary Instruction (TI) 2800/027 dated February 5, 1998, directed regional offices to conduct inspections of activities performed by industrial radiography licensees to verify that appropriate actions had been taken regarding retrofitting of specified radiography cameras.

Based on a review of license docket files and followup telephone conversations with appropriate licensees within Region III, it was determined that all active licensees involved with industrial radiography, either performed the required retrofitting to specified cameras or had cameras replaced in order to comply with the retrofit/safety procedures stipulated in the February 5, 1998, TI.

Attachment: Retrofit Inspection Results
