Subject: Detroit Edison Comments on NRC's General Statement of  
Policy and Procedure for NRC Enforcement Actions

Detroit Edison, the owner and operator of the Fermi 2 Nuclear Power Plant, submits the following comments on your revision of the NRC's General Statement of Policy and Procedure for NRC Enforcement Actions, NUREG-1600 (Enforcement Policy). These comments are based on a review of the issues paper that was published in the Federal Register, on May 1, 2000 (65FR25368).

Detroit Edison supports the revision of the Enforcement Policy. As a member of the Nuclear Energy Institute (NEI), we have participated in the development of comments by the NEI and generally support them as submitted.

Should you have any questions or require additional information, please contact me at (734) 586-4258.

Sincerely,

Norman K. Peterson  
Director - Nuclear Licensing
