Mr. Christopher Gugliotti

Waterbury, CT 06708

Dear Mr. Gugliotti,

This is in response to your letter in which you voiced your protest against the proposed burial of nuclear waste products at Yucca Mountain, Nevada. I have forwarded your letter to the NRC's point of contact on Yucca Mountain as indicated below.

You may be interested in visiting the Nuclear Regulatory Commission's Website for the high-level waste program at www.nrc.gov/NMSS/DWM/hlw.htm. The Website includes:

- ▶ high-level waste program background information,
- ▶ NRC regulations on high-level waste disposal,
- ▶ the Yucca Mountain licensing schedule,
- ▶ a list of proposed NRC and Department of Energy meetings,
- ▶ transcripts from recent public meetings,
- ▶ reports from NRC on-site representatives, and
- ▶ several NRC high-level waste documents.

The information available on the NRC Website describes NRC's regulatory responsibilities to protect public health and safety, the common defense and security, and the environment. The NRC staff intends to carry out those responsibilities.

If you have any questions or comments on this topic, you should refer them to William Reamer, Chief, High-Level Waste Branch, Division of Waste Management, Office of Nuclear Material Safety and Safeguards. You may also choose to contact one of the NRC staff contacts listed on the Website.

I hope that this information is helpful to you.

Sincerely,

/RA/

R. W. Borchardt, Director
Office of Enforcement
