Mr. Robert P. Hannah, Administrator
Office of Environmental Assessment
Department of Environmental Quality
P.O. Box 82178
Baton Rouge, LA 70884-2178

Dear Mr. Hannah:

As requested, we have reviewed the proposed regulations in NE021 and NE022, as forwarded under the cover letter dated April 6, 2000. The proposed regulations cover the two amendments identified in the enclosed Regulation Assessment Tracking System (RATS) Data Sheet. The regulations were reviewed by comparison to the equivalent NRC regulations in 10 CFR Parts 30 and 71. We also discussed our review of the regulations with Ms. Sharon Parker on June 12, 2000.

As a result of our review we have one comment that has been identified in the enclosure. Please note that we have limited our review to regulations required for compatibility and/or health and safety. Under our current procedure, a finding that a State regulation meets the compatibility and health and safety categories of the equivalent NRC regulation may only be made based on a review of the final State regulation. However, we have determined that if your proposed regulations were adopted incorporating the comment and without other significant change, they would meet the compatibility and health and safety categories established in the Office of State and Tribal Programs (STP) Procedure SA-200.

We request that when the proposed regulations are adopted and published as final regulations, a copy of the "as published" regulations be provided to us for review. As requested in STP Procedure SA-201, *Review of State Regulations, (November 1998)*, please highlight the final changes and send one copy in a computer readable format, if possible (for a copy of SA-201, please see <http://www.hsr.d.gov/nrc/procfm.htm>.)

We have also summarized on the RATS Data Sheet our knowledge of the status of other Louisiana regulations. Please let us know if you note any inaccuracies or have any comments on the information contained in the RATS Data Sheet.

If you have any questions regarding the comments, the compatibility and health categories, or any of the NRC regulations used in the review, please contact me or Mr Richard Blanton of my staff at (301) 415-2322 or by e-mail at rlb@nrc.gov.

Sincerely,

/RA By Paul H. Lohaus for/
