UTAH STATE OFFICE  
ATTORNEY GENERAL

January 27, 1998

Professor Robert Wilson  
Center for Astrophysics  
Harvard University  
160 Concord Avenue  
Cambridge, MA 02138

Dear Professor Wilson:

I am extremely distressed that you put my name forward as a supporter of the Goshute Indian Reservation's request for the storage of nuclear materials. I specifically requested more information from you before I would allow my name to be used. Not only was no material sent to me, but I find myself in vehement opposition to your group's position.

I must insist that you immediately withdraw my name from your list of supporters. Further, you can expect that I will strongly and actively oppose any move to use the Goshute Reservation as a pawn in the nuclear storage game.

Sincerely,

William H. Kanen  
Director and Research Professor

Cc: Michael Leavitt, Governor  
Bernie Machen, U of U President  
Bill Evans, Asst. Attorney General
