

July 7, 2000

Mr. Jay Hyland, Manager  
Radiation Control Program  
Division of Health Engineering  
10 State House Station  
Augusta, ME 04333

Dear Mr. Hyland:

We have reviewed the final State of Maine rules relating to Radiation Protection (10-144A CMR 220, Part A), which became effective on July 1, 1999. The final regulations are in response to one amendment identified in the enclosed Regulation Assessment Tracking System (RATS) Data Sheet. The regulation was reviewed by comparison to the equivalent NRC regulation in 10 CFR 20.1003. In addition, we reviewed our December 3, 1997 letter to you that addressed the proposed regulations.

During the periodic meeting with you and your staff on December 7, 1999, it was identified that this final Maine rule had not been reviewed by NRC. We have completed the review and have identified one comment, as enclosed. This comment must be addressed to meet the compatibility and health and safety categories established in the Office of State and Tribal Programs (STP) Procedure SA-200.

We have also summarized on the RATS Data Sheet our knowledge of the status of other Maine regulations. Please let us know if you note any inaccuracies or have any comments on the information contained in the RATS Data Sheet.

If you have any questions regarding the comments, the compatibility and health and safety categories, or any of the NRC regulations used in the review, please contact me or Tom O'Brien of my staff at (301) 415-2308.

Sincerely,

*/RA/*  
Frederick C. Combs, Deputy Director  
Office of State and Tribal Programs

**COMMENTS ON FINAL MAINE REGULATIONS  
AGAINST COMPATIBILITY AND HEALTH AND SAFETY CATEGORIES**

State Regulation	NRC Regulation	RATS ID	Category	Subject and Comments
10-144A CMR 220, Part A	10 CFR 20.1003	1991-3	A	<p>Definition: Radiation Area</p> <p>The Maine definition for "radiation area" does not indicate the distance at which the dose could be received by an individual. The CFR equivalent definition specifies a distance of 30 centimeters. This distance specification should be added to the Maine definition to meet the compatibility category.</p> <p>Maine also adds a restriction that the dose cannot exceed 100 millirems in any 5 consecutive days. As there is no CFR equivalent, this restriction should be deleted so that the definitions are essentially identical to meet the compatibility category.</p>

Respiratory Protection and Controls to Restrict Internal Exposure - Part 20	64 FR 54543 64 FR 55525 (2/2/03)	1999-3			
Energy Compensation Sources for Well Logging and Other Regulatory Clarifications - Part 39	65 FR20337 (5/17/03)	2000-1			

1. (Y/N) Y means "Yes," there are comments in the review letter that the State needs to address. N means "No," there are no comments in the review letter.
2. Or other generic Legally Binding Requirement.
3. Not required means these regulations are not required for purposes of compatibility.
4. A State need not adopt a specific regulation if the State has no licensees that would be subject to that regulation. See: "Final Policy Statement on Adequacy and Compatibility of Agreement State Programs," III.1. Time Frame for Adoption of Compatible State Regulations, p. 6, SECY-95-112, May 3, 1995.
