Subject: Missile Crashes requested in FOIA

missile crashes 1 jan
1982.doc...

Scott and Jim,

Here's the best we could do by COB today. Mission Control Center (MCC) and/or Range Control Officer (RCO) log books were about our only source for this info. Could not find logbooks covering July 94 to Jan 96. They may be in BRACC files controlled by, I believe, Mr. Mike Dalton in your building. Sorry it's not everything but it's the best I could do on short notice and by COB today. Let me know if you need more assistance next week. And by the way, charge time to this project as follows: 3 hours GS-13 pay and 3 hours GS-12 pay.

Jim Banas

Missile Crashes Between 1 Jan 1988 – 31 Dec 1998

Missile Type	Live Warhead?	Crash Date	Crash Location	Crash Cause
Seek Spinner	No	13 Sep 89	-3 miles NE of Granite Peak	
ALCM	No	27 Feb 90	165 degrees at 60 miles from DPG	
ACM	No	4 May 90	25 miles SE of Ely, NV	
ALCM	No	24 May 90	20 miles SW of DPG	
ALCM	No	24 Jul 91	155 degrees at 10 miles from ENV VORTAC
