Dear Mr. Lochbaum:

In a letter to me dated June 29, 2000, you provided the results of your review of the Consolidated Edison (ConEd) Condition Monitoring and Operational Assessment Report, dated June 2, 2000, for the Indian Point Unit 2 (IP2) steam generators. You also included a discussion as to why you believe that Nuclear Regulatory Commission regulations require that a full-participation exercise be conducted at IP2 this year. I have placed your letter in the Public Document Room and ADAMS (Accession Number ML003729858), and have provided copies of your letter to the appropriate staff reviewing these issues as part of the review of your March 14, 2000, 10 CFR 2.206 Petition and its supplements. If you have any questions, please contact me at (301) 415-1495.

Sincerely,

/RA/
