Laboratories
Ag. Spiridonos St.
Egaleo 122 10
Athens, Greece

Dear Sir :

I appreciate your advice and help in establishing a Safety and Protection Program in my Department for my staff and students who work in laboratories such as Biochemistry – Clinical Chemistry, Microbiology, Parasitology, Hematology, Virology, Mycology, Lab Animals e.t.c.

Written information, charts, stickers, posters, symbols, and other means of attracting the attention if sent to me, I think it will be very useful.

Thank you on advance.

Sincerely yours,

Panagiotis Soublis

Associate Professor
