SUBJECT: DRY CASK STORAGE CONCERNS

Dear Ms. Shillinglaw:

I am responding to your June 27, 2000, letter to Chairman Meserve. Thank you for your comments. The staff is carefully reviewing your letter to determine if there are any issues that have not been previously addressed. If any new or unique safety issues are identified, the staff will consider them in its ongoing license reviews and inspection activities.

Regarding your concern on documenting the dry storage cask contents and maintaining the records, licensees are required to maintain documentation on the cask contents in a suitable manner until license termination.

I want to assure you that the NRC staff takes its mission very seriously of assuring public health and safety. If you have additional comments or questions that you believe the staff should consider, please let me know.

Sincerely,  
/S/
