**UNITED STATES OF AMERICA
NUCLEAR REGULATORY COMMISSION**

BEFORE THE ATOMIC SAFETY AND LICENSING BOARD

In the Matter of:

Docket No. 50-423-LA-3

Northeast Nuclear Energy Company

(Millstone Nuclear Power Station,
Unit No. 3)

ASLBP No. 00-771-01-LA

**DECLARATION OF DAVID A. LOCHBAUM IN SUPPORT OF INTERVENORS'
SUMMARY AND SWORN SUBMISSION REGARDING CONTENTIONS 4, 5
AND 6**

I, David A. Lochbaum, declare as follows:

1. I serve as nuclear safety engineer with the Union of Concerned Scientists, 1616 P Street NW, Washington DC 20036, and in such capacity am responsible for directing UCS's nuclear safety program, for monitoring developments in the nuclear industry, for serving as the spokesperson on nuclear safety issues, and for initiating action to correct safety concerns.
2. I received a Bachelor of Science in Nuclear Engineering Degree from the University of Tennessee at Knoxville in 1979.
3. During my professional career, I have provided system engineering and consulting services at numerous nuclear facilities. My professional experience includes development of administrative procedures for the Independent Safety Engineering Group (ISEG) at the Grand Gulf Nuclear Station. A copy of my resume is appended as Exhibit A to the declaration I provided as was submitted in Intervenor's Petition to Intervene, October 6, 1999.
4. I have reviewed the March 19, 1999 license amendment application filed by the Northeast Nuclear Energy Company (NNECO) for an amendment to Facility Operating License No. NFP-49, which seeks permission to expand the storage capacity of the Millstone Unit No. 3 spent fuel pool. I have also reviewed pertinent portions of the Final Safety Analysis Report for the Millstone Nuclear Power Station, and various correspondence and technical documents relating to the proposed amendment and to risks of spent fuel storage, which are identified in the Intervenor's contentions. In addition, I attended a site inspection of the Millstone Unit 3 spent fuel pool on May 10, 2000.
5. I participated in the preparation of the Intervenor's contentions regarding the proposed license amendment. Following admission of Contentions 4, 5 and 6, I assisted

in evaluating whether NNECO's license amendment application poses an undue and unnecessary risk of a criticality accident, increases the probability of a criticality accident and whether it conforms to the requirements of General Design Criterion 62 and applicable NRC Staff guidance.

6. In making my evaluation, I conducted an extensive review of documents related to criticality prevention at Millstone and in general, including correspondence between NNECO and the NRC Staff, criticality studies performed by or for NNECO, NRC Staff and licensee documents regarding proposed spent fuel storage expansion applications, Licensee Event Reports of criticality-related occurrences, NRC Staff and industry guidance documents and related correspondence, the rulemaking history of GDC 62, and other publicly available information regarding spent fuel storage and criticality prevention. I also participated in preparing for depositions of NNECO and NRC Staff witnesses regarding Contentions 4, 5 and 6, and in reviewing the deposition testimony of these witnesses. In addition, I was deposed by NNECO.

7. I have contributed to the development of the technical factual assertions contained in Detailed Summary of Facts, Data and Arguments and Sworn Submission on Which Connecticut Coalition Against Millstone and Long Island Coalition Against Millstone Intend to Rely at Oral Argument to Demonstrate the Existence of a Genuine and Substantial Dispute of Fact with the Licensee Regarding the Proposed Expansion of Spent Fuel Storage Capacity at the Millstone Unit No. 3 Nuclear Power Plant, including Appendices A, B and C, submitted to the Licensing Board on June 30, 2000 (hereinafter "Summary"). My contributions to the Summary have been true and correct to the best of my knowledge and professional judgment.

I declare, under penalty of perjury, that the foregoing is true and correct.

Executed on June 30, 2000.

David A. Lochbaum
