Subject: Stop nuclear waste dumping on Native lands

'00 JUL 24 AM 15

Dear Mr. Richardson,

I am opposed to storing high level nuclear waste at Yucca Mountain, Nevada. Yucca Mountain is on land guaranteed the Western Shoshone Nation through the 1863 Treaty of Ruby Valley. The mountain is sacred to Shoshone and Pauite peoples. In addition to the moral injustice of storing America's deadliest garbage on sacred Native territories, I am opposed to the Yucca Mountain project because it poses a serious health risk to all Americans.

OP
AD

Yucca Mountain is a seismically active, leaky mountain and does not meet the containment requirements for isolating radioactivity for the next quarter million years.

I believe America must stop producing nuclear waste and invest in a safe energy future. I urge you to protect all Americans and the original peoples of this land by enacting policies that phase out nuclear power and herald in renewable energy resources and energy efficiency.

It is time we use the technology we have developed. It is time that members of government stand up for what is right and not for the path of least resistance. If you do not oppose the above action then please consider seriously encouraging the use of cleaner and safer energy alternatives.

Thank-you for your precious time

Sincerely,
Ann Russell
