**Subject: Vermont Yankee Nuclear Power Station
License No. DPR-28 (Docket No. 50-271)
Vermont Yankee Setpoint Control Program Update**

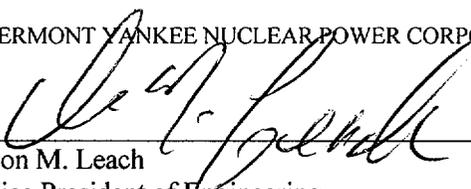

In Reference (a), Vermont Yankee (VY) committed to address the issue of instrument uncertainty in an Instrument Setpoint Control Program (SCP). In Reference (b), VY provided a status of our on-going effort and a schedule for completing required evaluations and revising plant procedures. The purpose of this letter is to provide updated information on the implementation of our SCP.

VY is on schedule to have all evaluations completed and implemented consistent with the commitments made in Reference (b). Since our previous status, VY has modified the SCP to include a process that uses a graded approach to ensure that the most detailed evaluations are completed for those instruments deemed the most safety significant.

If you have any questions regarding this submittal, please contact Mr. Gautam Sen at (802) 258-4111.

Sincerely,

VERMONT YANKEE NUCLEAR POWER CORPORATION

Don M. Leach
Vice President of Engineering
