This orientation meeting will be followed by a technical panel meeting a week or more later, depending on the members' individual schedules.

As part of the panel meeting, a decision will be made whether the candidate generic issue should be pursued further, and if so, to what extent. With assistance from panel members, the Panel Chairman will document any recommendations for further actions. Also, at that time, the level of effort for future involvement by the panel, if any, will be determined, and you will be notified.

If you have any questions regarding participation of your staff on the Generic Issue Review Panel, please feel free to contact me, Jack Rosenthal, or Harold VanderMolen, 415-6236, of my staff.
