Dear Ms. Fitzgerald:

The Nuclear Regulatory Commission has reviewed and does not object to the Department of Energy's proposed Subsequent Arrangement under the 1996 U.S.-EURATOM Agreement for Cooperation in the Peaceful Uses of Nuclear Energy (the Agreement) to add Brazil, Kazakhstan, Romania and Ukraine to the list of countries referred to in paragraph 2 of the Agreed Minute to the Agreement. We understand that under Article 8.1(C).(i) of the Agreement, these countries will be eligible to receive retransfers of low enriched uranium (LEU), non-nuclear material, equipment and source material under the Agreement or retransfers of LEU produced through the use of nuclear material or equipment transferred under the Agreement, for nuclear fuel cycle activities other than the production of high enriched uranium.

Sincerely,
