

August 8, 2000

Mr. Thomas C. Thompson, Director  
Licensing & Competitive Assessment  
NAC International, Inc.  
655 Engineering Drive  
Norcross, GA 30092

SUBJECT: REVISED SCHEDULE FOR REVIEW OF NAC-UMS MAINE  
YANKEE AMENDMENT (TAC NOS. L22452, L22979, L23095)

Dear Mr. Thompson:

This revision to our July 20, 2000 schedule letter, is in response to our July 28, 2000, public meeting concerning the Nuclear Regulatory Commission (NRC) review of the NAC International, Inc., (NAC) Universal Multi-purpose Canister System (UMS) amendment application for Maine Yankee contents. The enclosed revised schedule accelerates the key milestones and dates associated with your NAC-UMS Maine Yankee amendment application. It is expected that the overall schedule will be reviewed and updated periodically as key milestones are reached and, as necessary, to appropriately reflect NRC's casework prioritization.

Please note that the revised NAC-UMS Maine Yankee amendment review schedule relies on the completeness and accuracy of your July 27, 2000, response to our request for additional information. The NRC identification of any technical issues during the completion of our technical review will have an impact on the schedule. To better serve your needs and those of our other stakeholders, we request in writing any NAC requested changes to this revision.

Sincerely,  
/s/ /RA/  
Timothy J. McGinty, Project Manager  
Licensing Section  
Spent Fuel Project Office  
Office of Nuclear Material Safety  
and Safeguards

Docket Nos. 72-1015, 72-1025, 71-9270

Enclosure: NAC Schedules, Rev. 1

cc: Attached List
