

The U.S. Nuclear Regulatory Commission (NRC) invites your comments on the Draft Environmental Impact Statement for the Construction and Operation of an Independent Spent Fuel Storage Installation on the Reservation of the Skull Valley Band of Goshute Indians and Related Transportation Facilities

1. To ensure your comments are appropriately considered, please indicate the sections or areas of the DEIS your comment(s) is directed toward?

2. Please state your comment(s)? I would seriously hope that our comments are given consideration. I am a mother living in Salt Lake with small children. I strongly oppose the storage site on the Goshute Reservation.

The health risks that this project would create throughout the state as the waste is transported and laid to rest here in Utah are too great. There has not been enough public opportunity to discuss and mitigate this issue fairly with the citizens of Utah. This has not been a democratic process.

I want to continue living here in Utah without fear for my family.

Meloni Stewart Clini
