SUBJECT Unit 1 UFSAR Update

PHONE 5203

This memo requests that duplicate copies of Updated Final Safety Analysis Report (UFSAR) General Table of Contents pages be removed and requests confirmation that the UFSAR contains the pages identified on Revision 18 lists of effective pages for Appendix B and Appendix D.

The Revision 18 update package was recently issued with 1 copy of the General Table of Contents. However, the General Table of Contents is provided in the front of each of the 10 UFSAR volumes. In order to resolve this discrepancy, please place the General Table of Contents pages updated by Revision 18 behind the "Table of Contents" tab in Volume 1. Also, please remove the "Table of Contents" tabs and the "General Table of Contents" pages (includes any General Lists of Tables or Figures) from the front of UFSAR Volumes 2 through 10.

The last page of the recently distributed insertion instructions has two "Appendix B" headings. The second Volume 10, Appendix B heading should be labeled Volume 10, "Appendix D" to be consistent with the Appendix D pages identified for removal or update. If any Appendix B or Appendix D pages are missing, please contact Ken McMullen at (724) 682-5214 and the missing pages will be provided. The UFSAR Revision 18 Appendix B and Appendix D list of effective pages can be consulted to determine if the UFSAR contains the appropriate pages.

If you have any questions, please contact Ken McMullen at 724-682-5214.
