Subject: CNWRA Program Manager's Periodic Report for Period 06-FY95

Dear Mr. Linehan:

Pursuant to Section F.1.5. of the above referenced contract, attached herewith is our "Program Manager's Periodic Report (PMPR)," which reflects the activities of the CNWRA February 18-March 17, 1995. This is the first transmittal of the PMPR in electronic format. Per your instructions, the cost graphs have been deleted, but appropriate tables of planned and actual costs, and cost variances are provided in the electronic document. Only the original transmittal letter is being submitted to the CNWRA Program Manager. A copy of the letter with a paper copy of the PMPR will be sent to B. Meehan, for the record.

The approval of spending estimates for all plans has permitted the use of only one estimate for each period's expenditures. The variance, expressed in both a dollar and percentage basis, is from the revised estimated period cost, which is taken from FY95 estimated spending plans in the NRC-approved operations/project plans.

Table 2, Summary of Schedule Changes, indicates 5 items with revised dates.

Section 5, Summary Financial Status, includes a job code-level analysis of spending through Period 6 of FY95.

The GS Element section has been subdivided into sections for the Geology and Geophysics (GLGP) and Geohydrology and Geochemistry (GHGC) Elements, consistent with our recent organization.

Also note that this PMPR includes a section on "Integration", a quarterly feature of the PMPR. This assessment is provided to fulfill our commitment to you to document efforts at multi-disciplinary, inter-element, and inter-job code integration.

Please contact me or Mr. Henry Garcia if you have questions regarding this report.

Sincerely yours,

Wesley C. Patrick
President
