Dear Mr. Gray:

Thank you for your letter dated August 3, 2000, in which you expressed your appreciation for the Nuclear Regulatory Commission's (NRC's) efforts to establish an effective and efficient program for renewing nuclear power plant operating licenses. We are also pleased that the National Association of Regulatory Utility Commissioners (NARUC) adopted this resolution supporting the NRC's approach to evaluating nuclear power plant license renewal.

We will strive to further improve the effectiveness, efficiency, and predictability of the renewal process, while at the same time ensure our primary responsibility for nuclear safety.

We are also grateful to you for acknowledging Robert Wood's participation during your 2000 Summer Committee meetings. We appreciate your interest in the NRC's licensing activities and will be pleased to respond to any questions or concerns the NARUC may have in the future.

Sincerely,

/RA/
