Dear M FIELD(Last Name):

Thank you for attending the U.S. Nuclear Regulatory Commission's (NRC's) May 4, 2000, public meeting in Las Vegas. We appreciate your attendance and were happy to meet with you at our Information Workshop. We are continuing to look for ways to foster a common understanding among the various stakeholders of the NRC's licensing process, if the U.S. Department of Energy decides to submit a license application to the NRC for a possible geologic repository at Yucca Mountain, Nevada. Your participation means a lot to us and helps us understand the issues and their importance to you and the citizens of Nevada. As you requested, I am enclosing a copy of the official meeting transcript.

We have an important role to play in protecting the health and safety of the people of Nevada and the environment. Because we are committed to building a long-term relationship with the residents of Nevada, we plan to return to Las Vegas for future public meetings on other topics related to the proposed repository and NRC's role in ensuring public health and safety. We look forward to meeting with you again.

Sincerely,

/RA/

C. William Reamer, Chief
High-Level Waste and Performance
Assessment Branch
Division of Waste Management
Office of Nuclear Material Safety and Safeguards
