Washington, DC 20555

SUPPLEMENTAL RESPONSE TO MARCH 7, 1994, INFORMATION REQUEST  
(SCPB: N/A)

Reference: Ltr, Shelor to Holonich, dtd 9/17/93

On March 7, 1994, the U.S. Nuclear Regulatory Commission requested data from the U.S. Department of Energy/Yucca Mountain Site Characterization Office (YMSCO) in electronic media (enclosure 1). YMSCO responded in an April 11, 1994, letter (enclosure 2) with hard copies of the requested information, stating that electronic media were not available.

Since our April 1994 response, YMSCO decided that the requested data was needed in electronic media for project purposes, and we have digitized the hard copy reports you have previously received for entry into our GENISES data base. Enclosed is an 8mm data tape file in ASCII on SUN workstation format of the data you requested on March 7, 1994. These data have linkages with our Geographic Information System.

We have provided additional tapes for transmittal to the State of Nevada and Nye County, Nevada, to whom we have agreed to provide all electronic media, as explained in our September 17, 1993, letter to you (reference).

Enclosure 3 explains the data files as cross-referenced to the hard copy you have already received.
