ENGINEERED BARRIER SYSTEM CONCEPTS WORKSHOP SUMMARY REPORT

Enclosed is the report of the workshop which you attended last June in Denver, Colorado. Your participation helped make this a successful meeting. Development and evaluation of concepts continues with the goal to select one or more concepts for advanced conceptual design during 1992. A second workshop is being considered following this selection.

If you have any questions regarding the enclosed report, please contact me at (702) 794-7275 or Richard P. Morissette, Science Applications International Corporation, at (702) 794-7783.
