Dear Mr. Holonich:

Enclosed for your information are ten copies of the Yucca Mountain Site Characterization Project Technical Data Catalog dated March 31, 1992. This document is updated and released quarterly in accordance with the U.S. Department of Energy/U.S. Nuclear Regulatory Commission Site-Specific Procedural Agreement of 1984.

The catalog contains a listing of data collected in the course of characterizing Yucca Mountain, Nevada, as a potential site for a high-level radioactive waste repository. This version of the catalog contains information submitted to the project Automated Technical Data Tracking System since March 29, 1990. Information about data submitted to the project previous to that date will be added to the catalog as time and funding allow.

Should you have questions, please contact either Claudia M. Newbury at (702) 794-7942 or Sharon Skuchko of my office at (202) 586-4590.

Sincerely,
