Nuclear Regulatory Commission  
Attn: Mr. Michael P. Lee  
Division of Waste Management  
WF2 (Mail Stop 7K-6)  
Washington, DC 20555

**Subject:** Submission of Intermediate Milestone 20-5702-252-403 (User's Guide for Generalized Report Writer Facility)

Dear Mr. Lee:

Attached is subject user's guide.

This user's guide provides background material on the Regulatory Program Database (RPD) purpose, design, and functions as well as the specific operating instructions for the various classes of RPD users. This submission also documents the completion of development for the generalized report writer, which provides the capability to support a wide range of regulatory and technical analyses by enabling portions of regulatory program records (such as compliance determination strategies and compliance determination methods) to be automatically extracted, formatted, styled, rearranged, and combined with other information.

Training will be provided on use of the RPD at your convenience after installation on the various workstations is completed during the next three months.

Please contact me (210) 522-5054, or Dr. A. DeWispelare (210) 522-6072 if you have any questions concerning this matter.
