BRUNSWICK STEAM ELECTRIC PLANT, UNIT NO. 2
DOCKET NO. 50-324/LICENSE NO. DPR-62
REQUEST FOR APPROVAL OF RELIEF REQUEST FOR THE THIRD 10-YEAR
INSERVICE INSPECTION INTERVAL (TAC NO. MA9533)

Gentlemen:

By letter dated August 8, 2000 (Serial: BSEP 00-0111), Carolina Power & Light (CP&L) Company submitted a request for relief from the 1989 Edition of the American Society of Mechanical Engineers (ASME) Boiler and Pressure Vessel Code, Section XI, for the Brunswick Steam Electric Plant (BSEP), Unit No. 2. The relief request, which was provided as an enclosure to the letter, proposes an alternative to the minimum examination percentages associated with Code Categories B-J and B-F for the first inspection period of the current 10-year inspection interval. The section of the relief request entitled "Components For Which Relief Is Requested" incorrectly indicates that the request applies to BSEP, Unit No. 1. As stated in the cover letter for the submittal, the relief request applies to BSEP, Unit No. 2 only. We apologize for any confusion resulting from this mistake.

Please refer any questions regarding this submittal to Mr. Leonard R. Beller, Supervisor - Licensing, at (910) 457-2073.

Sincerely,

Warren J. Dorman
Manager - Regulatory Affairs
Brunswick Steam Electric Plant
