

The U.S. Nuclear Regulatory Commission (NRC) invites your comments on the Draft Environmental Impact Statement for the Construction and Operation of an Independent Spent Fuel Storage Installation on the Reservation of the Skull Valley Band of Goshute Indians and Related Transportation Facilities

1. To ensure your comments are appropriately considered, please indicate the sections or areas of the DEIS your comment(s) is directed toward?

section 4-45  
and general

2. Please state your comment(s)?

~~I~~ I support a no-action alternative.  
The off-normal operations and accidental scenarios considered in the DEIS are far too few, and without adequate assurance of full liability of the Private Fuel Storage Corporation to pay for any damaging accidents. If PFS dissolves or evades responsibility for paying for accidents, cleanups and concomitant medical compensation for all the citizens at risk, will we local taxpayers be stuck with both the cancer and the cleanup bill?

3. To receive a copy of the final EIS please provide your mailing address
