SUBJECT: NRC/ENTERGY OPERATIONS, INC. MANAGEMENT MEETING

Dear Mr. McGaha:

This refers to the public meeting conducted in the Region IV office on August 29, 2000. This meeting was held at Entergy's request to introduce new engineering management members and to discuss Entergy engineering at the corporate level and at the associated facilities.

A key focus area was a discussion of the communication of engineering issues at Entergy sites over the past several months. In addition, the status of Entergy's renewal program and improvement initiatives were discussed. The exchange of information during the meeting was candid and informative and allowed us to gain a better understanding of your current engineering performance.

In accordance with Section 2.790 of the NRC's "Rules of Practice," Part 2, Title 10, Code of Federal Regulations, a copy of this letter will be placed in the NRC's Public Document Room.

Should you have any questions concerning this matter, we will be pleased to discuss them with you.

Sincerely,

  
Ken E. Brockman, Director  
Division of Reactor Projects
