Dear Secretary Richardson,

I am writing to urge ( 1) that radioactive waste and material from nuclear power and weapons be kept isolated from the public and the environment, and that you prohibit any "releases" from regulatory control; (2) that you prohibit radioactive material from entering the consumer marketplace or anywhere but licensed radioactive facilities; (3) that you recapture that which has been released and (4) that you work for an International Prohibition on radioactive "release."

Sincerely,

Freya Goldstein
