Dear Secretary Richardson, NRC Chairman and Secretary Browner:

I am writing concerning the captioned subject.

I urge your organizations to keep radioactive waste and materials from nuclear power and weapons isolated from the public and the environment and prohibit any "releases" from regulatory control. In addition, the DOE, the NRC and the EPA should: 1) prohibit radioactive materials from entering the consumer marketplace or anywhere else that is not a licensed radioactive facility; 2) recapture what has already been released; and 3) work for an International Prohibition on radioactive "release."

DOCKET NUMBER
PROPOSED RULE **PR 20**
(64 FR 35090)

This issue is urgent and should be treated accordingly by the DOE, NRC and EPA.

Sincerely,

Susan Budnick
