The Honorable Sam Gejdenson
United States House of Representatives
Washington, DC 20515

Dear Congressman Gejdenson:

This is in reply to your letters to Chairman Meserve dated August 28 and September 6, 2000, in which you ask the Nuclear Regulatory Commission (NRC) to participate in a town meeting in Haddam, Connecticut. We are pleased to support the town meeting at 7:00 p.m. on September 18, 2000, at the Killingworth High School auditorium in Higganum, Connecticut. We will have NRC staff representatives present to provide information and respond to questions and views about our activities involving Connecticut Yankee Atomic Power Company's plans for dry cask storage of spent nuclear fuel and related issues. Our staff has been in contact with the Haddam Township Board of Selectmen to coordinate NRC's role in this meeting.

If you have any questions regarding this activity, please have your representative contact me at (301) 415-1776.

Sincerely,

/RA/
