**Ms. Betty L. Wright  
Export/Import Licensing Officer  
Office of International Programs  
Nuclear Regulatory Commission  
Washington, D.C. 20555**

**Dear Ms. Wright,**

**Subject: Request for extending the validity of Export Licence (XSNM03118)**

Please refer to that attached Export Licence, granted on December 20, 1999 for export to Japan of reload fuel for Fukushima II Unit 1 & 2 of Tokyo EPCO (Export Licence No. XSNM03118).

We got a request from JNF, intermediate consignee, that due to change of transport schedule of the nuclear fuel, they need the Export Licence to cover the export now scheduled in June 2001, while the License now expires at February 28, 2001.

In this regards, we would like your approval to extend the validity until July 31, 2001 taking into account a possible further delay from the planned June 2001 shipment.

We are aware that we should bear an additional cost associated with such extension and hence would appreciate it if you would direct us how to pay such amount to NRC.

Should you have any questions, please kindly contact us.  
Your cooperation would be highly appreciated.

**Sincerely Yours,**

  
**Shuichi Ohashi  
Vice President**

U.S. NUCLEAR REGULATORY COMMISSION  
**EXPORT LICENSE**

License Number XSNM03118

**Conditions**

**Condition 1 -** Licensee shall file with the Customs Officer or the Postmaster two copies, in addition to those otherwise required, of the Shipper's Export Declaration covering each export and mark one of such copies for transmittal to the U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001. The following declaration should accompany or be placed on the Shipper's Export Declarations for such exports:

"This shipment is being made pursuant to specific license number (specific license number) filed at (location of customs office where license is filed), on (date license was filed). This license expires on (expiration date of license), and the unshipped balance remaining on this license is sufficient to cover the shipment described on this declaration."

**Condition 2 -** Exports authorized in any country or destination, except Country Groups Q, S, W, X, Y, and Z in Part 370, Supplement No. 1, of the Comprehensive Export Schedule of the U.S. Department of Commerce.

**Condition 3 -** This license covers only the nuclear content of the material.

**Condition 4 -** The material to be exported under this license shall be shipped in accordance with the physical protection requirements for special nuclear material in 10 CFR 73.

**Condition 5 -** Special nuclear material authorized for export under this license shall not be transported outside the United States in passenger-carrying aircraft in shipments exceeding (1) 20 grams or 20 curies, whichever is less, of plutonium or uranium 233, or (2) 350 grams of uranium 235.

**Condition 6 -** This license authorizes export only and does not authorize the receipt, physical possession, or use of the nuclear material.

**Condition 7 -** The licensee shall complete and submit an NRC Form 741 for each shipment of source material exported under this license.

**Condition 8 -** The licensee shall advise the NRC in the event there is any change in the designation of the company who will package the nuclear material to be exported under this license, or any change in the location of the packaging operation, at least three weeks prior to the scheduled date of export.
