

September 14, 2000

Mr. William O'Connor, Jr.
Vice President
Nuclear Generation
Detroit Edison Company
6400 North Dixie Highway
Newport, MI 48166

SUBJECT: ENRICO FERMI 2 PUBLIC MEETING AT THE NRC REGION III OFFICE

Dear Mr. O'Connor:

This letter documents the matters discussed between myself and Mark Mitchell of the NRC Region III staff and Ed Kokosky, Bill Walland and Dane Williams of your staff, in a public meeting on September 11, 2000, held in the Region III office, Lisle, Illinois.

The purpose of this meeting was to discuss the current status of the radiation protection and chemistry programs at the Fermi 2 facility. The issues discussed during this meeting related to organizational changes both implemented and planned, occupational radiation protection statistics, and unique operational evolutions that have presented radiation protection challenges in the last six months. Our office appreciated the opportunity to review these topics with your staff in the interest of being informed of general program changes and challenges at Enrico Fermi 2.

We will gladly discuss any questions you may have concerning this matter.

Sincerely,

/RA by Wayne J. Slawinski Acting For/

Gary L. Shear, Chief
Plant Support Branch
Division of Reactor Safety

Docket No. 50-341
