Subject:	Guidance on Respiratory Protection Rulemaking

Alan,

We met with Hugh Thompson and Ed Jordan this afternoon and received the following guidance:

1. On enforceability -- We need to meet with OE and OGC on enforceability problem if we move the protection factors to a RG. Before we meet, we need to draft rule language concerning "approved protection factors." Hugh would like this meeting be completed within one week.

2. On rulemaking -- Both Hugh and Ed would like to have the proposed rule pkg that you completed in 1996 submitted to Offices for conc. We should add in SOC a discussion of an option of moving the protection factors to a RG and request public comments on this option.

3. On rulemaking plan -- The development of a rulemaking plan for this rule is not necessary.

Please let me know if you have any questions. (NOTE TO MEETING PARTICIPANTS: If I miss anything or I state incorrectly, please let me know. Thanks.)

Tony
