

**UNITED STATES
NUCLEAR REGULATORY COMMISSION**

WASHINGTON, D.C. 20555-0001

April 23, 1998

MEMORANDUM TO: Alan K. Roecklein, Task Leader
Division of Reactor Program Management
Office of Nuclear Reactor Regulation

FROM: 
Brenda Jo. Shelton, Chief
Records Management Branch
Office of the Chief Information Officer

SUBJECT: OFFICE REVIEW AND CONCURRENCE: PROPOSED RULE,
RESPIRATORY PROTECTION AND CONTROLS TO RESTRICT
INTERNAL EXPOSURES, 10 CFR 20

The Office of the Chief Information Officer has reviewed the subject proposed rule and concurs in it. However, the rule is being placed on hold because of a change in policy since our earlier review. When we first reviewed the proposed rule, legal counsel advised that the rule did not need to be submitted to the Office of Management and Budget (OMB) for its review because the burden decrease was negligible. However, subsequent to that review, OMB has indicated that it wants to do a perfunctory review of all information collections that, in any way, revise the burden to the public. Therefore, please complete and submit the attached NRC Form 670, "Information Required for Making an Insignificant Burden Determination," so that we may provide it and the rulemaking to OMB for expedited review.

Please change the CIO coordination statement to the following:

The Office of the Chief Information Officer has reviewed the proposed rule for information technology and information management implications and concurs in it.

Should you have any questions, please contact Herbert M. Parcover on 415-7226 or e-mail HMP.
