James A. FitzPatrick Nuclear Power Plant and the Indian Point Nuclear
Generating Unit No. 3," dated August 18, 2000.**

Dear Sir,

The Authority, in coordination with the Niagara Mohawk Power Corporation's (NMPC) Nine Mile Point Site, completed the document search related to performance of biennial offsite emergency preparedness exercises for the James A. FitzPatrick plant. Information was transmitted to the NRC staff regarding the subject correspondence. Letters shared included: Mr. Mangan (NMPC) and Mr. Bayne (NYPA) to Mr. Vassallo (NRC) dated September 18, 1984 and Mr. Vassallo (NRC) to Mr. McNeil (NYPA), dated February 14, 1985. Also shared was a listing of dates, and level of offsite involvement, for pertinent Emergency Preparedness Exercises and a list of dates for pertinent NRC Resident Inspection Reports for the FitzPatrick plant. A conference call involving NRC, NMPC, and NYPA personnel was held on September 6, 2000, to discuss the information provided. During the conference call the NRC staff indicated that no further information was required from the Authority's FitzPatrick plant. If you have any questions, please contact Mr. George Tasick at (315) 349-6572.

Very truly yours,
