(67)

To: Scott Flanders

I would like to voice my strong opposition to having any nuclear waste stored in Utah. Not only is it a hazard for those of us living in Utah, but a accident waiting to happen as it is shipped here.

Please leave the waste where it is generated. It is an unfair burden to place upon the environment and people living in Utah. Why should we have to be the dumping ground for the rest of the country? Leave it in the state that generates the waste. We don't need anymore problems like the Fall-Out in Southern Utah. Our air is already dangerously full of toxic pollutants. We have to have oxygenated gas in the winter months. You will destroy our State economy if you bring nuclear waste from other areas of the county and centralize it in one area. People will move from the area. Most people moving into Utah do so because of our life style, our beautiful country. PLEASE DON'T POLLUTE UTAH!!!!

Sincerely,

Susan & George DeHaan, 510 N. 200 East Farmington, Ut. 84025  
801 451-7009
