Re: Appointment of Acting Reactor Supervisor

Effective September 6, 2000, until January 2, 2001 when his appointment as Reactor Supervisor will occur, Michael Gavelek will be Acting Reactor Supervisor of the Nuclear Reactor Laboratory.

At its September 6, 2000 meeting, the Reactor Committee approved an exemption to UARR 100, "Administrative and Operating Procedures", that requires the Reactor Supervisor to hold a Senior Reactor Operator's (SRO) license. Contingent on this exemption is a quarterly report to the Committee describing Mr. Gavelek's progress in preparing for a SRO licensing exam. This report is to be submitted to the Committee by me.

I am expecting to submit a request to the Nuclear Regulatory Commission for a SRO licensing exam to be held in the third week of December, 2000.
