Docket No. 50-219  
Withdrawal of Technical Specification Change Request No. 275

Dear Sir/Madam:

AmerGen Energy Company, LLC (AmerGen) requests that Technical Specification Change Request (TSCR) No. 275 be withdrawn. TSCR No. 275, which was submitted on July 5, 2000, by GPU Nuclear, Inc., for Oyster Creek proposed a revision to the core spray pumps and system components. Based on issues associated with the proposed change discussed with NRC staff during the preliminary review of the proposed change, AmerGen has decided to request withdrawal of this TSCR from further consideration.

Very truly yours,

James A. Hutton, Jr.  
Director - Licensing
