Reference: (a) Letter, VYNPC to USNRC, "Technical Specification Proposed Change
No. 226 - Update, Control Rod Block Instrumentation," BVY 00-81, dated

By Reference (a) Vermont Yankee (VY) provided replacement Technical Specifications (TS) as an
update to Proposed Change No. 226, which was originally submitted by VY letter 99-160, dated
December 21, 1999. The replacement TS pages and related discussion were necessary because of the
issuance of intervening license amendments, which affected some of the pages being changed.

VY did not provide Reference (a) under oath or affirmation. This letter serves as the oath or affirmation
for Reference (a).
