

October 9, 2000

Mr. Antonio Gea
Technical Director
Consejo de Seguridad Nuclear
C/Justo Dorado, no. 11
E28040 Madrid
Spain

Dear Mr. Gea:

I am writing to express my appreciation for the excellent work done by Mr. Francisco Gallardo of your staff while assigned to the Office of Nuclear Reactor Regulation (NRR) of the U.S. Nuclear Regulatory Commission (NRC) from July 1999 to October 2000. Mr. Gallardo was a productive member of the NRR staff and was actively involved in resolving nuclear power plant regulatory and licensing issues. He made an important contribution to NRR's safety evaluation of topical reports on digital instrumentation and control platforms for the digital replacement of existing analog instrumentation.

Mr. Gallardo arrived with considerable knowledge of NRC regulations and, although his experience in digital systems was less extensive, he adapted quickly and contributed significantly to our reviews. He provided a major input to the safety evaluation of the topical report on the Westinghouse CENP Common Qualified Platform for digital instrumentation, and participated in peer reviews of the safety evaluations of both the Siemens and the Westinghouse topical reports. His evaluations of the differences and similarities in the reports helped the staff maintain consistency in the reviews.

Overall, Mr. Gallardo created a very favorable impression and represented the Consejo de Seguridad Nuclear with distinction. As part of our increasingly strong cooperation with the Consejo de Seguridad Nuclear, I believe Mr. Gallardo's assignment in NRR made an important contribution which benefits both the NRC and the Consejo de Seguridad Nuclear. We in NRR appreciate his contribution and excellent work.

Sincerely,

Samuel J. Collins, Director *(/RA by SJCcollins)*
Office of Nuclear Reactor Regulation

cc: Dr. Anibal Martin
Vice-Presidente
Consejo de Seguridad Nuclear

Mr. José Villadoniga
Subdirector General
de Tecnología Nuclear
