Subject: Issuance of Executive Order Prohibiting Radioactive Wastes and Materials

Please take immediate action to recapture, stop, and prevent release/clearance/recycling of radioactive wastes and materials into consumer products and the environment.

I support regulation and isolation of radioactive wastes from nuclear power and weapons. I oppose the use of radioactive materials and wastes in consumer products and building materials including but not limited to metals, concrete, plastics, glass, paper, wood, soil and equipment.

I call on the US Nuclear Regulatory Commission to reverse its efforts and expenditures to release radioactive wastes and to initiate a policy requiring regulatory control and isolation of all radioactive wastes. I request the recapture and recall of radioactive materials and wastes that have been released into the marketplace.

DOCKET NUMBER
PROPOSED RULE **PR 20**
(64FR 35090)

I call on the US Department of Energy to halt all releases of radioactive wastes and materials into the marketplace, to recapture that which has been released and revoke the radioactive Recycle 2000 Policy immediately.

Sincerely,

Ilene Matthews
