DOCKET NUMBER
PROPOSED RULE PA 20
(64 FR 35090)

From: <Kimj684@cs.com>
To: <chairman@nrc.gov>
Date: Sun, Sep 24, 2000 6:25 PM
Subject: Protect consumers from radioactive material.

00 SEP 25 A9:33

To the Chairman of the Nuclear Regulatory Commission,

OFFICE
OF THE
ADMINISTRATIVE

Your agency is in the process of legalizing the release of radioactive material into the consumer market place.

As a citizen of this country, I demand that you keep all radioactive wastes and materials from nuclear power and weapons isolated from the public and the environment. You must prohibit and releases of these materials from the regulatory control of licensed radioactive facilities and recapture any material that has been released.

Only when an international prohibition on this dangerous and deceptive practice is in place will the health of American citizens be assured.

Sincerely,
Kim Jones
Carpinteria, CA
