SUBJECT: INPUT FOR OBSERVATION AUDIT REPORT OAR-00-10, DISRUPTIVE
EVENTS PROCESS MODEL REPORT - MILESTONE IM20.1402.331.019

Dear Mr. Mabrito:

We have reviewed the Center for Nuclear Waste Regulatory Analyses' (CNWRA's) September 12, 2000, letter to the U.S. Nuclear Regulatory Commission (NRC) which transmitted pre-decisional input to the NRC input for Observation Audit Report No. QAR-00-010 for the U.S. Department of Energy's (DOE's) audit of the Disruptive Events Process Model Report (PMR) at its Las Vegas, Nevada, facilities on August 21-25, 2000. Based on our review of this input, we consider that the CNWRA's September 12, 2000, submittal fulfills the Intermediate Milestone Number 20.01402.331.019 for support during the NRC's observation activities for the DOE Disruptive Events PMR audit.

There was a total of nine PMR audits performed by the DOE in FY 2000. The Disruptive Events PMR audit was the last of the PMR audits. Lessons learned related to the CNWRA's input for this series of DOE audits were conveyed to the CNWRA in our acceptance of Milestone 1402.331.017. We appreciate all of the support for observing these audits provided by the CNWRA's quality assurance and technical staff during FY 2000.

If you have any questions regarding the above comments, please contact me at (301) 415-5000. I appreciate your cooperation in this matter.

Sincerely,
