SUBJECT: DRAFT STAFF TECHNICAL POSITION (STP) ON "INVESTIGATIONS TO  
 IDENTIFY FAULT DISPLACEMENT AND SEISMIC HAZARDS AT A GEOLOGIC  
 REPOSITORY" -- REVISED PUBLIC COMMENT DRAFT

The staff of the Geosciences and Systems Performance Branch (HLGP) has revised the subject draft STP based on comments received during the March 1991 technical exchange with the U.S. Department of Energy and others. HLGP believes the STP is suitable for public comment and recommends that it be noticed in the Federal Register. Therefore, it is requested that the Repository Licensing and Quality Assurance Project Directorate obtain the concurrences needed for issuing a Federal Register notice for this STP.
