INFORMAL MEMORANDUM

YUCCA MOUNTAIN QUALITY ASSURANCE DIVISION DIRECTOR

Richard E. Spence has accepted the position of Quality Assurance Division Director for the Yucca Mountain Quality Assurance Division. Mr. Spence has a Bachelor of Science Degree in Nuclear Engineering from Oregon State University and enters the position with over 25 years experience in the Nuclear Industry. The assignment is effective October 6, 1991.

Mr. Spence has worked for Technical and Management Support Services (T&MSS) in the Yucca Mountain Quality Assurance Division since March, 1989. His experience includes program management, procedure development, reactor operations, QA and ASME program development, training, health physics, radioactive waste shipping and handling, system support, employee concerns, jurisdictional interfacing, inspection, source surveillance, program assessments and auditing.

In addition to his extensive Quality Assurance background, Mr. Spence has a scientific background that will support his work in this position. His technical experience includes work as a radiation specialist, NRC licensed Reactor Operator. These positions entailed work in neutron radiography, specimen irradiation, reactor plant equipment maintenance, instrument calibration, personnel dosimeter, environmental sampling, radiation surveys and shipment and receipt of radioactive materials and waste.

Mr. Spence's history with Department of Energy Facilities including, Davis-Besse, Braidwood and Wm. H Zimmer, will aid in his transition to the new position.

Join me in welcoming Richard Spence to the Program. Please provide him with your fullest support and cooperation.

Donald G. Horton, Director
Office of Quality Assurance
