Subject: Opposition to nuclear waste dumping in Utah

65 FR 39206
June 23, 2000

104

Mr. Scott Flanders
Nuclear Regulatory Commission
Washington, DC

Dear Mr. Flanders:

On behalf of the 25 Realtor's of Westfield Real Estate, I have been asked to express our mutual concern and opposition over the potential dumping and storage of nuclear waste in Utah.

We are all residents of Utah and are practicing Realtor's throughout the state. We feel that the dumping and storage of nuclear waste is not in the best interest of the citizens of Utah, and will have a detrimental effect on our real estate values, especially in the areas nearby these storage sites.

Furthermore, as our welfare and livelihood-and the welfare and livelihood of many others in our industry and related industries-is dependant on the sale of real property, nuclear waste dumping and storage creates many concerns, including health and financial risks to the inhabitants of our state.

We urge you and those other members of the NRC to reconsider any possibilities of utilizing Utah as previously described.

Sincerely yours,
Tom Dell'Ergo
