David L. Meyer, Chief, Rules Review and Directives Branch
Division of Freedom of Information and Publications Services
Office of Administration

72-22

Sir: please do not allow the transportation and storage of nuclear waste material to and in Utah. We do not want it here. Private Fuel Storage says that it is safe, yet it will have no liability if an accident does occur. Nuclear Waste material is not safe. By transporting it across the United States is to endanger all those who reside along the travel route.

Thank you
Tom E. Jow
Salt Lake City
