Comments: I live not too many miles from the proposed site of the storage of the spent nuclear fuel on the Goshute reservation, and am VERY opposed to the installation of this facility. We have had too much hazardous waste in Tooele County now, and the thought of this spent nuclear fuel coming here scares me to death. We in Tooele County and the State of Utah did not use the nuclear energy and we should not be stuck with the remains. If it is so safe, leave it where it is. Transportation of these nuclear rods cannot be 100% safe and we do not want it in our county or state. I realize I am only one voice, but I hope one voice helps to do whatever it takes to not let this happen.

Thank you,

Nancy Burr
Tooele County Resident
