Interim Certification Prior To
Qualification Journal Completion

Inspector's name: Michael S. Peck

Inspection area for which interim certification is requested: commonly used resident inspector modules.

Basis for certification prior to completion of qualification journal:

Based on his prior certification as a resident inspector and observations and discussions with Mr. Peck, I believe he has adequate knowledge on the following reactor oversight program procedures to be interim certified on these modules. During his tour as a resident inspector, Mr. Peck was a team leader on a special engineering inspection at Dresden and performed numerous safety system inspections per MC 71710.

71111.04Q	Equipment Alignment	71111.19	Postmaintenance Testing
71111.13	Maintenance Risk and Control	71111.22	Surveillance Testing
71111.15	Operability Evaluations	71111.23	Temporary Modifications
71111.16	Operator Workarounds	71111.21	Safety System Design and Performance Capability

Mr. Peck also is sufficiently qualified to obtain plant status and respond to emergency situations.

Recommended:

Branch Chief/Supervisor: /RA/ by L. J. Smith Date 9/22/00

Interim Certification Expiration Date: March 1, 2001

The individual named above is hereby certified to perform independent inspections in the functional areas identified above based on the justification indicated. The individual may also perform independent inspection in related areas as authorized by the Branch Chief's/Supervisor's approval of the inspection plan.
